LEVELS OF CARE

Intensive Outpatient Program (IOP)

IOP is designed to help individuals who are experiencing an increase in distressing symptoms and behaviors or are not progressing in traditional outpatient services. The extra treatment and support fosters meaningful improvement and creates a solid foundation before transitioning to community treatment. IOP meets 3 to 5 days a week for 3 hours a day.

Partial Hospitalization Program (PHP)

PHP serves as a preventive program to hospitalization, as well as a solid bridge for those stepping down from hospitalizations or residential treatment programs. PHP meets 5 days a week, Monday through Friday from 9:00 am to 3:00 pm.
